

NISHI KUMARI

B.Tech CSE (AI & ML) | AI/ML Engineer

nishikumari82414300@gmail.com | +91 9279335955 | Kolkata, India
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in software development, web technologies, technical project execution, and system integration. Familiar with HTML, CSS, JavaScript, React, Python, APIs, databases, and Git, with experience in building, testing, debugging, and integrating technology solutions. Strong problem-solving and analytical skills with the ability to troubleshoot technical issues, write maintainable code, and quickly adapt to new frameworks and tools. Experienced in technical project coordination, team collaboration, event management, and community building, with a strong interest in AI/ML, emerging technologies, and innovative real-world applications.

EDUCATION

B.Tech – CSE (Artificial Intelligence & Machine Learning)	<i>Techno Bengal Institute of Technology, Kolkata</i>	<i>Aug 2024 – Jun 2027</i>
• Specialization in AI & ML Active Contributor to research & AI community	<i>CGPA: 8.25/10 (Up to 6th Sem)</i>	
Diploma in Computer Science & Engineering	<i>Government Women's Polytechnic, Muzaffarpur</i>	<i>2021 – 2024</i>
Class X (Secondary)	<i>Patel High School Daudnagar, Aurangabad</i>	<i>86.66% 2020 – 2021</i>

TECHNICAL SKILLS

- **Languages:** Python, C++, JavaScript, Java
- **ML / AI:** Scikit-learn, SHAP (XAI), NumPy, Pandas, Data Analysis, Predictive Modeling, Feature Engineering
- **XAI / RAG :** SHAP, LIME, LangChain, RAG Pipelines
- **CV & Vision:** OpenCV
- **Web / Full Stack:** Flask, FastAPI, React.js, Node.js, HTML/CSS
- **Databases:** MongoDB, Supabase
- **Cloud & Tools:** AWS (Lambda, S3, Serverless), Git, GitHub, Jupyter Notebook, Google Colab, VS Code

PROJECTS

ParkIn : AI-Powered Smart Parking System	<i>Python · Flask · Scikit-learn · Supabase · React Native</i>	Live Link	<i>2025 – Present</i>
1st Place – GenFusion AI Competition, Tech Fest BIT	GitHub		
• Developed an AI-powered smart parking system using Flutter, Flask, and Supabase for real-time slot booking and management. • Integrated IoT-based parking slot monitoring with live availability updates and automated booking workflows. • Implemented ANPR (Automatic Number Plate Recognition) using EasyOCR and OpenCV for seamless vehicle entry and exit.			
SnifTern.ai : Internship Fraud Detection Platform	<i>Python · Flask · Scikit-learn · NLP · OCR · ReportLab</i>	Live Link	<i>2025 – Present</i>
1st Place – Envision Software Competition, Tech Fest BIT	GitHub		
• Built an AI-powered internship fraud detection platform using Logistic Regression and TF-IDF for scam detection and risk scoring. • Integrated LinkedIn, Indeed, and Glassdoor scraping with OCR and multilingual support for job verification. • Developed a 0–100 fraud scoring system with company legitimacy checks and deployed the platform live.			
NAFLD XAI : Liver Disease Detection with Explainable AI	GitHub <i>Python · XGBoost · SHAP · LIME · Pandas · Streamlit</i>		<i>2026 – Present</i>
• Developed an Explainable AI model for NAFLD (Liver Disease) detection using machine learning techniques for accurate prediction. • Integrated SHAP-based explainability to provide transparent feature importance and improve model interpretability.			

CERTIFICATIONS

Google Analytics 4 (GA4): Become a Web Analytics Specialist	Certificate	IT Essentials: PC Hardware and Software	Certificate
Mastering AWS Serverless: Hands-On with Core AWS Services	Certificate	Cisco Cybersecurity Essentials	Certificate
Introduction to Packet Tracer	Certificate	SAP HANA Development Boot Camp	

LEADERSHIP & EXTRACURRICULAR

Social Lead	<i>PredAIction – Official AI & ML Club, BIT</i>	<i>Sep 2025 – Present</i>
• Led social media strategy, increasing community engagement through AI & ML-focused content and event promotions. • Designed promotional campaigns and coordinated digital outreach to boost club visibility and student participation.		
Head Coordinator of Electronovation	<i>BITS2BYTES 2K26 – Annual Tech Feast, BIT</i>	<i>Jun 2026</i>
• Coordinated end-to-end execution of Electronovation, managing technical workflows, team operations, and event logistics. • Streamlined event planning, volunteer coordination, and execution processes for BITS2BYTES 2K26.		

ACHIEVEMENTS ADDITIONAL INFORMATION

1st Place – Envision | 2nd Place – Electronovation (IoT) | 1st Place – GenFusion (Generative AI) | Recognised 2nd – Academic Excellence

LANGUAGES

English (Professional) | Hindi (Native)

ADDITIONAL INFORMATION

Open to: AI/ML & Software Opportunities | Availability: Internship & Full-Time Roles | Interests: AI Innovation & Emerging Technologies
